

Here is the legend for the key layers Map:

- \* trans/xfmr\_const\_s#
  - o transmission/transformer constraints for Scenario # in Task 7
  
- \* trans/xfmr\_const\_s#\_task8
  - o transmission/transformer constraints for Scenario # in Task 8
  
- \* trans/sub\_exist
  - o transmission/substations that were already existing
  
- \* trans/sub\_ssi
  - o transmission/substations that were added to the ssi case
  
- \* trans/sub\_s#\_p#
  - o transmission/substations that were added to the case for Scenario # in Pass # for Task 7 or Task 8
  
- \* The last Pass of a Scenario is always for Task 8.
  
- \* trans/sub\_s#\_gen\_int
  - o transmission/substations that were added to the case for Scenario # for generation interconnections
